

Seeing the Capital Differently

Birds & Aviaries

Welcome to *CityThemes*

By printing this leaflet you have decided to discover, or rediscover, the sights and delights of **London** in a different way. We hope that you enjoy your explorations of our fascinating and historical capital city.

This leaflet has been designed to allow you to explore as the mood takes you. Both well-known and lesser-known attractions are included and they are randomly listed so that you plan your own itinerary and visit as many or as few as you wish.

Please note:- some places restrict entry and ask for prior application either in writing or by telephone. This is indicated where known. Others may change opening days and hours with little warning – it may be worth checking by phone if they are off the beaten track.

A very brief description of the reason for the choice of site is given but because of space it is not possible to include much detail. Again a telephone call to the site may help you to decide on whether a visit is worthwhile. Remember there may be other items that interest you at the same site.

Themes are constantly being updated and new titles added so please keep looking at our website or get in touch with us by e-mail or letter. We welcome your comments especially if you feel that some site should be included or details are incorrect/inaccurate. Contact details are

Duck Island is a bird sanctuary with ten types of goose, black and white swans, grebes, shelduck, teal and several other varieties - and even pelicans.

the first pelican was introduced in the late 17th century as a gift from a Russian Ambassador. Over the years many ambassadors have come to see this as a tradition and offer a gift of a pelican, not a native British bird, to St. James's Park. The pelicans are fed every afternoon at 3.00pm near Duck Island Cottage which dates from 1837
